Please make sure you have all the parts before starting assembly.

A	4 pcs	B	4 pcs	C	20 pairs	D	5 pcs
Top Poles		Bottom Poles		Slip Sleeves		Shelves	
 Plastic cap (top)		 Threaded end (bottom)					
E	2 pairs	F	4 pcs				
Wheels		Leveling Feet					
 locking							

**Step 1:**  
 Screw **Wheels (E)** or **Leveling Feet (F)** into **Bottom Poles (B)**.

**Step 2:**  
 On the bottom of each pole, fasten a pair of **Slip Sleeves (C)** around the grooves at the desired shelf height.

**Note:** Double grooves are for sight

**Step 3:**  
 Slide a **Shelf (D)** over the top of 4 bottom poles until it rests snugly over the sleeves.

**Tip:** It is easier to do this step with the unit on its side. If necessary, use a rubber mallet to further secure the shelf.

**Step 4:**  
 Repeat steps 2 and 3 by attaching slip sleeves and another shelf at the desired height.

**Step 5:**  
 Once the unit is stable and upright, screw the **Top Poles (A)** into the bottom poles and add the remaining shelves to complete the unit.
